SAFE DIGGING

Protecting the general public and the environment

DAMAGE PREVENTION

Protecting the underground facilities

811 BASICS

- Applies to Everyone, Everywhere
- One Call Notification Act of 1994
 - One-Call Board of Directors
 - State Fire Marshal
 - Attorney General
- Free service/utilities pay to protect
- Protects underground utilities, excavators, general public, environment
- Needed now more than ever

I'm planning to dig. How does **811** work?

1. Call 811 or go to your state 811 center's website a few days before digging to request that buried utilities in your yard be marked.
2. Wait a few days for all utilities to respond to your request.
3. Confirm that all utilities have responded.
4. Respect the utility marks or flags.
5. Dig carefully around buried utilities.

-  Communication, Alarm or Signal Lines, Cables or Conduit
-  Potable Water
-  Reclaimed Water, Irrigation and Slurry Lines
-  Sewer and Drain Lines

THE NE ONE-CALL NOTIFICATION SYSTEM IN ACTION:

The utilities must respond back to the excavator

Excavator provides accurate information in a timely manner

The call center must collect the information correctly and notify the correct utilities

Each stakeholder renders a critical role.

- 40% of homeowners plan to dig this year
- Nearly half (45%) will NOT call before they dig
- 2/3 believe they will not hit an underground utility
- Damage occurs less than 1% of the time IF the homeowner calls before they dig.

**DO YOUR PART TO AVOID DAMAGING
AN UNDERGROUND LINE.**

Use one call tickets correctly

**43,000 damages in 2018 resulted from
not following guidelines correctly:**

- Digging outside of area on ticket
- Digging prior to valid start date/time on ticket
- Digging after valid ticket expired

Ticket guidelines must be followed to prevent damages.

NEW RULES AND REGULATIONS

CALL 911

If an excavator causes a release of natural gas or any other hazardous material, they must call **911** first, then 811 (who then notifies the facility owner).

Effective January 1, 2016:
49 CFR 196

The excavator is now included in 49 Code of Federal Regulations Part 196 (49 CFR 196) which states:

c. An excavator who causes damage to a pipeline facility:

i. Must report the damage to the operator of the facility at the earliest practical moment following discovery of the damage; and

ii. If the damage results in the escape of any PHMSA regulated natural and other gas or hazardous liquid, must promptly report to other appropriate authorities by calling the 911 emergency telephone number or another emergency telephone number.

- If damage occurs to a utility, call the one call center and report the damage
- If the utility is a pipeline, call the one call center and the pipeline operator of the damage
- If the damage to the pipeline caused a **release** of the product, call 911, 811 (who notifies the pipeline operator).

DAMAGES
Nebraska811

Nebraska811

DAMAGES
MUST BE REPORTED to 811
per 76-2326

76-2326 NEBRASKA STATE LAWS REQUIRE THE EXCAVATOR TO CALL NEBRASKA811 IF A DAMAGE TO AN UNDERGROUND UTILITY OCCURS

Reporting Damages to Nebraska811

- All Damages must be CALLED in to Nebraska811
- Be prepared to provide corresponding ticket number or notify call center operator If no corresponding ticket exists
- Provide location of damage and what utility (if known) was damaged
- Nebraska811 will notify all Member utilities located in or near the area of the reported damage

A DAMAGE NOTIFICATION IS NOT A REQUEST FOR MARKING BUT A NOTICE OF DAMAGE OR DISTURBANCE OF AN UNDERGROUND FACILITY. ONLY THE AFFECTED FACILITY OWNER/OPERATOR IS REQUIRED TO RESPOND.

PICTURES/VIDEO

Pictures – good vs bad:

- Pictures with date, time reference
- Description of what picture illustrates:
 - damage i.e. scraped, perforation caused by (type of machine)
 - Scope of work
- Measurement reference – tape measure or common object
- Identifiable object in background for reference – building, street sign

One Call Violation Complaint Form

One Call Violation Complaint Form

If in the course of excavation, the excavator discovers that the operator has incorrectly located the underground facility, he or she shall notify the center as soon as practical but no later than **seventy-two hours** after discovery.

INCORRECT LOCATE EXAMPLE

Report a Violation

Nebraska One-Call Enforcement

The Attorney General's Office receives complaints alleging violations of Nebraska's One-Call Notification Act. The One-Call Notification Act outlines certain legal requirements for excavators and underground facility operators in order to protect the public from injury and protect facilities from damage that may occur during excavation. Violations of the Act may be subject to civil penalties of up to \$10,000.00 per violation.

Some of the assessed civil penalties may be waived if a party maintains compliance with the One-Call Act for a period of time and attends a Damage Prevention Safety Education course approved by the State Fire Marshal. Civil penalties are allocated to the local school fund in the county where the violation occurred.

Once a complaint is received, the Attorney General's Office reviews the complaint and conducts additional investigation, if necessary. The Attorney General's Office may contact the party that submitted the complaint for additional information. A notice of potential violation will be shared with the party against whom the complaint is filed and they will then have an opportunity to respond to the complaint.
